CONTEMPTUOUS COAL DUMPING. It Disturbed the Supreme Court and the Driver was Hauled Up.

The trial for murder of John Shanley, saloon keeper of Fourteenth street and Avenue B, had just been resumed yesterday before Justice Smyth in the criminal branch of the Supreme Court when the driver of a coal wagon began to unload coal into the basement of the building on the northwest corner of Centre and White streets. The coal rattled down a chute from the cart to the cellar and made a racket which

the cart to the cellar and made a racket which disturbed the trial. As soon as one cart had unloaded another drove up. Justice Smyth stood the noise for an hour and finally sent an attendant out to order the coal dumping stopped. The attendant returned and reported that he had ordered the noise stopped. It didn't stop. "Bring that man before me," and I'll order him to stop, "The driver of the cart was lugged into court a very badly scared man. When told that he was liable to imprisonment for contemut of court he looked as if he would faint. He promised not to unload any more coal until court adjourned. Then he was discharged. The trial was not concluded.

FREE COAL WILL BE SCARCE. Great Slices Cut Off the Charities Department Estimate.

The Board of Estimate yesterday cut the estimate of the Department of Charities from \$1,639,154 to \$1,262,000. The principal item cut was alterations and repairs to buildings, for which \$212,000 was asked and \$10,000 alfor which \$212,000 was asked and \$10,000 allowed. The \$40,000 asked for free coal for the poor was cut to \$10,000. All the charity organizations said that the practice of civing alms of coal was radically bad. Commissioner Croft asked for many things in a prefunctory way, offering no objection to the huge cuts made in his estimates. The Mayor said to him:

"How is it you ask for each item as much as last year?"

last year?"
Well, asking and getting are two different things," retorted the Commissioner.

"Yes," rejoined the Mayor, "but is that the
way you would conduct your carpet business?"
Mr. Croft was mute, and the Mayor winked
at Mr. Fitch.

Bueiness Troubles.

Samuel B. Lawrence was appointed a receiver yesterday for the New York Bicycle Equipment Company of 257 Broadway, which has a branch in Chicago, on the application of the directors of the company, John D. Cheever, President; David H. Darling, Treasurer; Christopher W. Youngman, Vice-President and General Manhger, and S. B. Lawrence. The company was incorporated on Jan, 15 last and put a repair alt on the market. The liabilities are \$10.331,

att on the market. The habites are \$10.551, \$3805. The Sheriff bas taken charge of the place of business of Roberts & Brinkerboff, dealers in sarriages and sleighs at 117 Chambers street, an claims in favor of the J.B. McFarlan Carriage Company of Connersytile, Ind., for \$3.25, and in favor of Thomas L. Curley and Robert L. Hedges as surviving partners of Roland Davis of Hamilton, O., for \$1,420. Besides the carriage business the firm handled a bicycle.

Fuel Gas Matters Pat Over. The Aldermen referred to the Lamps and Gas

Committee yesterday the application of the New York Fuel Gas Company for a franchise to lay pipes to furnish fuel gas to consumers. The report of the Lamps and Gas Committee in report of the Lamps and das Committee in favor of granting the application of the Con-sumers' Fuel Gas Company for a franchise to lay pipes to furnish consumers with fuel gas at 40 cents the 1,000 cubic feet and to pay the city 20 cents for each lineal foot of pipe laid was made a special order for next Tuesday.

TUESDAY, Oct. 20. The Bank of England sold to-day about \$4,500,000 gold in the form of American engles for export to the United States. Simultaneously drawers of foreign exchange in this city and Boston announced that they would import between now and the end of the week \$5,025,000 It appears, therefore, that gold is also being secured in the open market in London for shipment to the United States, and the demand resulted in an advance to-day of 14d, in the Lon-don market for gold bullion, to 77s, 114d. Today's engagements of specie abroad make the total amount virtually in transit \$12,805,000 and increase the total of the import movement from all quarters to about \$65,000,000. Foreign advices corroborate the view expressed in this column last Sunday, that the Bank of France will decide to sell gold for export rather than permit the Hank of England to be drawn upon for gold to an extent that might unsettle the London money market. Practically all of the gold in transit and engaged to-day for import has been disposed of here at a slight premiam. Quotations for gold to-day were 14 of 1 W cent, for immediate delivery, is of 1 W cent, for gold to arrive, and Ha W cent, for sixty-day cails. There was a perceptible failing off in the inquiry for both spot gold and contracts and options. The transfers of currency to the interior through the Sub-Treasury were \$425,000. The heavy engagements of specie, together with the considerations that were influential yesterday, namely, the advance in the prices of wheat and other cereals in response to a foreign demand and confidence in a satisfactory outcome of the election, stimulated further purchases of stocks for both accounts by professional operators. Chicago Gas was taken in hand by its friends in a manner that resulted in a net advance of 41g ? cent. In the railway list C., B. and Quincy was the leader, both in point of activity and strength, and scored a net gain of 234 points. The advance in Chicago Gas was erally ascribed to prospects that the present Governor of Illinois will not be redlected. It was argued that his defeat would go a long ways toward restoring confidence in enterprises in the State of Illinois. Although Sugar Refining was more extensively dealt in than any other stock the fluctuations in it were unusually narrow, being less than 1 & cent., and the net result of the day's trading was an ad-185 vance of only is it cent. The market record of 185 the stock, in the face of an otherwise strong market, encouraged the view that the strength of the remainder of the list was taken advantage of to market stock. Other noteworthy

ever, responded generally to the prevailing cheerful and confident sentiment. The professional element was not at all disturbed by the patent fact that it was the chief buyer of securitics; on the contrary, operators of the class re-ferred to were inclined to flatter themselves upon their superior foresight and judgment as compared with the conservatism and inaction of the clients of commission houses and the

public generally. A review of the day's happenings would be incomplete that did not include a reference to an absurd despatch from Chicago that the banks of that city have advanced \$25,000,000 toward moving the crops. This is a most im-probable statement, in view of the facts that the aggregate deposits of the Chicago banks are only \$58,000,000; that a number of them 16% are only \$58,000,000; that a number of them of the are prevented from extending accommodations to their customers or the public upon an extension of the customers of the public upon an extension of the customers of the public upon an extension of the customers of the public upon an extension of the customers of the public upon an extension of the customers of the public upon an extension of the customers of the public upon an extension of the customers of t sive scale by their large and forced investments in Diamond Match and New York Biscuit stocks, and that the entire banking community of Chicago has become conservative and has constantly endeavored to strengthen itself since the collapse of the blackboard inflation in the prices of the two scourities mentioned. It is notorious that Chicago has supplied less money than usual this year to facilitate the movement of the crops, and it certainly has not lent anything like half of its deposits for that

purpose. Final sales compared with those of yesterday

Did you ever think of the similarity of this stock and CORDAGE. We are preparing some figures to show you how much they resemble each other.

The present market value of SUGAR, common, is about forty millions, this stock has paid 12 per cent, dividends for years and is likely to do so for some time. LEATHER preferred at 61 means about forty millions for the whole issue. Pos anybody (bink for a moment it can be of equal value with Sugar? There is a large lasse of Ronds coming ahead of the Stock, dividends are seident paid, and while the price can be marked up by the few who own it any one who buy ought to have a guardian appointed for them. The stock has now been advanced 30 points (thirteen millions of dollars). Does any one think the assets of the Company have really enhanced so much in a few weeks?
